To the Cambridge City Council:

As a Cambridge resident I urge you to vote NO on the BDS Proposal.
It is a harmful attempt to sway public opinion against Israel and will do nothing to promote a two-state solution. The proposed boycott of Hewlett-Packard is misguided and seeks to discredit an entire tech-savvy and innovative country.
Israelis and Palestinians have more constructive means for achieving peaceful solutions their troubles and most Israelis desperately want peaceful solutions that include a two-state solution. Don't punish the entire country for the actions of that country's leaders. We have a very similar political situation in our own country.
I am very proud of my city, and I would be ashamed of Cambridge if the City Council votes in support of BDS.
